

## **Moira Lake Public Boat Launch Rejuvenation – Fall 2024**

In Fall 2024, the Moira Lake Property Owners Association (MLPOA), in partnership with the Kiwanis Club of Madoc, completed a major rejuvenation of the Moira Lake public boat launch. This community-driven project involved over 80 volunteer hours—many of them on the tractor—thanks to the hard work of Joe Kaehler, Steve Antoski, Walt Kinkade, and "Fireman Ron."

The upgrades included a new retaining wall with extensive stonework, fresh sod installation, and the planting of a shade tree to enhance the space for future visitors. Special thanks to those who assisted with the landscaping and sod work.

Additional improvements are planned for 2025, including the installation of benches this spring and a commemorative plaque in the summer. As part of our ongoing commitment to shoreline health, future efforts will focus on naturalization of the area—this includes removing invasive plant species and replanting with native vegetation to support biodiversity and improve the lake's ecosystem.

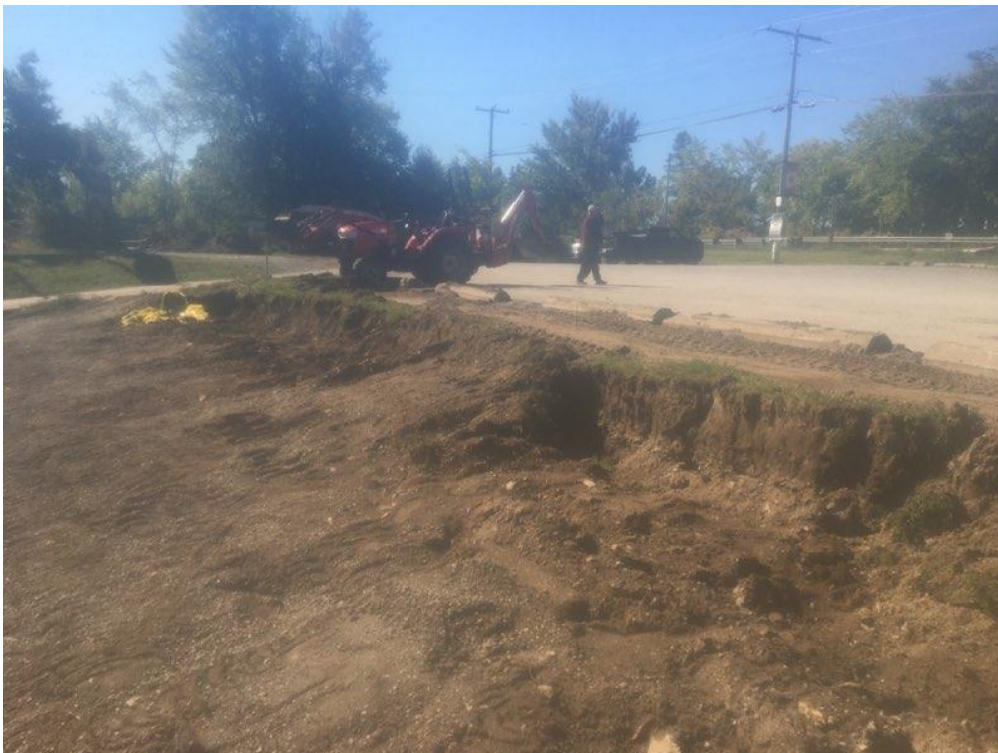

We gratefully acknowledge the support of local businesses who contributed to this project: Stonepath, Upper Canada Stone, La France Sod, and Timber-Mart.

This project reflects the strength of community spirit and the power of local partnerships. Thank you to everyone who contributed to making the Moira Lake boat launch a more beautiful and sustainable space for all.
